Title: AN END TO PRIVATE PROPERTY

Short summary: Private ownership of property is the foundation of all exploitative systems from feudalism, to settler-colonialism, to capitalism. As renters, we must not limit ourselves to fight simply for a reform of this system but rather, we must fight to overthrow the system of private ownership of property itself, which is at the heart of the exploitation we suffer as renters. We want to fight strategically to end private property and provide educational activities for members to learn and discuss more about how we can put an end to capitalism.

Expected budget (if any):

Description of proposal: The LRU recognises and stands in solidarity with:

the fight to end private property ownership.

Moreover, the LRU will explicitly state this on the LRU website under the menu subheadings “values” and “what we’re fighting for”.

What commitment will this proposal require from different parts of the union? (time, skills, money?)

The time, skills and money required would cover the labour costs and time requirements of an update to the LRU website.

Have any of these requirements been committed by others already? (If so, which ones?) I don't know but judging by the website, it doesn't look like it.
